

Dear President,

I'm Kaleb from fifth grade. I care most about the health of others. I would like you to focus on getting rid of COVID-19, or on how to handle it. I would also like you to focus on the development of technology for medical reasons and for construction reasons. Please increase the amount of sciences, so the human race can advance and flourish faster. This is all I have to say to you. I wish you the best of luck.

Sincerely,
Kaleb
